Meet the Buyer Event for Slough Multifuel Project

On behalf of SSE Thermal and CIP, Hitachi Zosen Inova AG (HZI) is the Engineering, Procurement and Construction (EPC) Contractor that has been engaged to build the Slough Multifuel Project on the Slough Trading Estate.

Once completed in 2024, the Slough Multifuel project will have a generating capacity of around 50MW. The plant will use up to 480,000 tonnes per year of pre-processed waste derived fuel, with at least two thirds of the waste fuel being contracted on a long term basis. Once complete, the new Multifuel plant will be able to provide additional steam to the SHP heat networks.

For the construction of the Slough Multifuel Project, HZI, in collaboration with the Chamber of Commerce, is looking for local suppliers of various work packages and is interested to meet with businesses from the following sectors:

- Locally based Recruitment Companies who are able to supply locally based staff
- Signage, Merchandise, Printing Services
- PPE, Covid Safety Equipment i.e. Perspex screens
- Landscaping
- Tools
- Hotels and other accommodation

We invite interested companies to a Meet the Buyer Event:

Date: **Tuesday 12 October 2021,
9 a.m. to 12 p.m.**

Venue: **HZI Conference Room,
689 Stirling Rd,
Slough, SL1 4ST**

In order to keep the event Covid secure, businesses will need to register in advance to attend giving a preferred time slot; businesses will then be given a specific appointment time. Limited car parking will be available at 689 Stirling Road. Please indicate whether you will be travelling by car when registering to attend.

To register your interest and preferred hour time slot at the event, please visit:
