

Aldbrough Hydrogen Pathfinder

SSE Thermal would like to introduce you to the Aldbrough Hydrogen Pathfinder project. The Project proposes to construct and operate a green hydrogen production, storage and energy generation facility, which sits within the existing Aldbrough Gas Storage facility.

Turn over to find out more about our upcoming community consultation, and how you can provide your feedback and ask the team any questions.

Public Consultation

This upcoming public consultation will provide members of the community and wider stakeholders the opportunity to learn more about the proposed Aldbrough Hydrogen Pathfinder Project, and the results of the scoping report.

Our virtual consultation room can be viewed online from **26 May until 23 June 2023**. During this time, you can visit the website below to view the virtual consultation, and provide your feedback via an online feedback form.

In addition to the virtual consultation, we will be holding events in the local area, which you are invited to attend, provide your feedback and ask the team any questions:

- **Tuesday 6 June, 2:30pm – 7pm:** Hedon Town Hall, 36 St Augustine's Gate, Hedon, Hull, HU12 8EX
- **Wednesday 7 June, 2:30pm – 7pm:** East Village Meadows, Northfield Farm, Garton, Hull, HU11 4QB
- **Thursday 8 June, 2:30pm – 7pm:** Aldbrough Village Hall, Garton Rd, Aldbrough HU11 4QA

Contact us

Stay up to date on the project, and view the virtual consultation room, by viewing our project website using the URL below, or by scanning the QR code:

If you have any questions, you can also contact our Engagement Manager via email and phone:

Phone: 07467 652088

Email: rachel.fox@sse.com

Next Steps

Following the public consultation, we will consider all feedback received from key stakeholders and the community, and incorporate these comments where relevant, before applying for planning permission later in the year.
